

M-3015-TH
 40/0 x 56/5
 3015 SQ. FT.

This smartly designed home is featured in the 2011 Street of Affordable homes and built by Artisan builder Timberland Homes. This pre-sold home has a main floor den, three car garage and a dramatic open kitchen with huge eating/working island open to the great room. Upstairs are three unique bedroom suites along with utility room. The bottom floor has a big Rec room, wine cellar and guest bedroom or teenager suite. This home could fit a gently sloping lot or an extreme slope as in the 2011 Street of Affordable Homes... This design is only available in the Portland Metro area with the consent of The original client.
